INFORMED CONSENT FOR CHIROPRACTIC CARE

By beginning chiropractic care at Compass Chiropractic LLC, I acknowledge that the objective of the chiropractor is to identify and correct vertebral subluxations through the administration of a chiropractic adjustment. The adjustment is a specific manual force applied to the spine by hand or instrument, in which a quick thrust or impulse is delivered to the involved area(s). In some cases, Kevin McDade DC may need to touch otherwise sensitive areas of the body to properly deliver an adjustment or analyze my spine. I acknowledge that some techniques require the body to be placed into seemingly awkward positions to better receive the chiropractic adjustment. I hereby request and consent to the performance of chiropractic care and various other procedures and modalities, on myself (or on the patient named below for whom I am legally responsible) by the licensed doctor of chiropractic, Kevin McDade DC.

Many patients report benefits while under chiropractic care including increased range of motion, pain relief, and others. Although most people do respond positively to care, no guarantees of cure have been implied or given. As with any health care procedure, there some associated risks which your doctor is required to bring to your attention. Though uncommon, you should note the possibility of: fracture, disc injury, muscle strain, ligament sprain, dislocation, and costovertebral separation. Strokes have been reported following chiropractic manipulation. The probability of this is exceedingly rare, estimated between one in one million and one in two million, and can be further reduced by screening procedures. Complications generally result from an underlying weakness of the bone or tissue which will be screened for during the initial exam. I understand all such risks and complications.

I understand that I am ultimately responsible for my health, and therefore may seek concurrent care from other related health care fields on my own accord. I agree to allow this office to use my confidential health information for the purposes of treatment, payment, healthcare operations and coordination of care with my medical physician(s) about my condition and treatment.

As of today, all of my questions have been adequately answered, but I am free to discuss any concerns with the doctor as the need arises. In the event that my conduct or cooperation become contrary to this agreement, Kevin McDade DC has the right to remove me from his care.

I have voluntarily read, understand, and agree to the aforementioned principles. By my signature below, I consent to all treatments deemed by this office to be in my best interest. I intend this document to cover the entire course of care, now and in the future, and agree to its provisions. I hereby authorize Kevin McDade DC, or whomever he designates as an assistant, to administer treatment to:

HIPAA - Health Insurance Portability and Accountability Act Notice of Privacy Policy

Compass Chiropractic LLC 13146 Midlothian Turnpike Midlothian, VA 23113 804-499-6020

The following is an explanation of our Privacy Policy and your rights as a patient.

- Our office does not distribute or make available to any outside source your "protected health information," or (PHI).
- Your personal health information is secure and used only for treatment, claims submission to third party insurance carriers for the purposes of payment, and other health care operations.
- A family member may be present when taking a case history, hearing the results of exams or tests, or during normal office visits. Family or friends will only have access to your PHI with your written authorization.
- Our office may send you seasonal, birthday, or reminder cards to the address supplied on your intake forms.
- Our office may call you to confirm or reschedule an appointment. We may leave a message on the answering machine unless you have specifically instructed us to the contrary.
- You have the right to withdraw consent and terminate care at any time for any reason. A withdrawal of consent must be made in writing.
- You have the right to ask questions about the status of your health at any time.
- You have the right to view and copy your own file. Copying and mailing charges may apply.

By my signature below, I acknowledge that I have read, understand, and agree with the privacy policies set forth by Compass Chiropractic LLC. At my request, I am entitled to view and keep a copy of this abbreviated form or the corresponding full privacy statement, which is also made available on the practice's website: www.CompassChiroVA.com.
